Piotr Kosoń, Front End Team Leader

Team Leader with over 10 years of experience in building and managing high-performing teams, driving scalable frontend solutions that enhance user engagement. Expertise encompasses leading diverse technical projects, refactoring legacy systems, and implementing modern architectures to deliver superior digital products.

Employment History

Front End Lead at ProvenExpert.com

May 2020 — Present

Team Leadership

As a Front End Architect, I led a team responsible for building scalable and modern frontend architectures. I managed recruitment processes, conducted one-on-one meetings, and facilitated performance evaluations, ensuring team growth and alignment with project goals. Additionally, I oversaw the team's workflow, maintaining high-quality code and timely project delivery.

Technical Aspects

I was responsible for designing frontend architecture, refactoring legacy code to a modern tech stack, and performing thorough code reviews. I worked closely with the backend team and project managers to design and implement new features, ensuring smooth integration and alignment across all layers of the application. Additionally, I solved complex technical issues, guaranteeing the robustness and efficiency of our solutions.

Technologies:

- *React, Redux, Typescript, Next.js, Git, MaterialUI, Svelte, TanStack, Node*

Front-end developer - freelancer at GHackers

May 2014 — Present

As a versatile Freelance IT Professional, I've successfully navigated diverse projects, seamlessly adapting to various roles including Front-End (FE) Leader, Technical Consultant, Senior Front-End Developer, and Full Stack Developer. I excel in leading front-end teams to craft visually compelling interfaces, ensuring a superior user experience and maintaining high-quality coding standards. My role extends beyond development, as I provide strategic technical consultancy to clients, aligning technology choices with project goals. Leveraging a comprehensive skill set, I've demonstrated expertise in both frontend and full-stack development, contributing significantly to the success of each project.

Technologies:

- *React, React Native, Redux, Vue, GraphQL, Node, Hapi, MongoDB, Postgres, Remix*

Technical Co-Founder at SEOWind

November 2021 — June 2023

As the Technical Co-Founder, I took charge of designing and implementing both backend and frontend architectures, leveraging AWS Lambdas for efficient and scalable solutions. In my leadership role, I also played a crucial part in onboarding new team members, ensuring a smooth integration into our projects and workflows. Additionally, I actively engaged in resolving more complex technical challenges, leveraging my expertise to guide the team through intricate problem-solving processes and contribute to the overall success of the projects.

Technologies:

- AWS Lambda, Serverless, Next.js, non relational database, Typescript, microservices, React, SSR

Front End Architect at Optilyz

April 2019 — May 2024

In my past role as a Front End Architect, I led a team in crafting robust and scalable frontend architectures while spearheading the refactoring of legacy code to a modern tech stack. Leveraging my expertise, I implemented cutting-edge technologies and design principles to elevate the visual and interactive aspects of digital products. As a leader, I took on additional responsibilities, including conducting appraisal interviews to assess team members' performance, leading technical interviews for new candidates, and actively participating in the decision-making process to determine the best fit for the team's dynamic and goals.

Technologies:

- *React, Redux, Typescript, CSS, materialUI*

JavaScript developer at Autenti.com

March 2017 — September 2028

JavaScript, React, Redux, Microfrontend

Front-end developer at AKRA Polska

March 2016 — February 2017

JavaScript, React, AngularJS, jQuery, HTML, CSS

SEO Manager at FreshMail

March 2014 — May 2015

Co-Owner at StudioTotal

October 2010 — May 2014

Specjalista ds. SEO / Front-end developer at Magnat

February 2010 — April 2014

Education

Master's degree, Krakow University of Economics

January 2007 — 2013
